

Tablet Depot™ Product Family

The Tablet Depot™ is designed to store, charge, and secure any size tablet or e-reader. This unit is stackable and can be placed side by side without cord interference making it space efficient. Available as a standard, pedestal, or cart version.

Tablet Depot™ - All Models

- Available in models that store 10, 16, or 20 tablets/e-readers.
- 3-point locking door ensures security.
- No timer needed. UL approved power strips.
- Retractable locking metal door keeps contents secure.
- Fully removable, locking rear IT access panel allows for easy set up and maintenance.
- Ventilation pattern creates airflow for charging units.
- Power Management Dividers keep cords organized and are removable for storage of other peripherals.

Tablet Depot™ - Standard Model

- Able to mount under a desk or table to conserve floor space.
- Most cost effective model.

Tablet Depot Cart™

- 3" or 5" Caster options for mobility throughout a facility.
- Drawer base for storage of manuals or peripherals.
- 1-1/8" thick laminate top for smooth writing surface and furniture appearance.

Tablet Depot Pedestal™

- 2" nylon wheel for easy movement.
- Drawer base for storage of manuals or peripherals.
- 1-1/8" thick laminate top for smooth writing surface and furniture appearance.

Power Management Divider™

- Provides a cord management solution by wrapping the tablet or e-reader power cord neatly around the shelf.
- Divider shelves are removable for easy set up.
