

Ez2[®] Rotary Action File

datum

The Datum Ez2[®] Rotary Action File saves time, space, and money. The innovative design of the Ez2[®] includes a double sided, rotating shelf unit that houses more than twice the files in less space than a traditional filing system while providing fast and easy access to stored materials. Available in standard sizes from 3 to 8 levels high, the Ez2[®] can be used for a variety of storage applications including letter, legal, binder, multimedia, and more.

Dual Side Access

360° rotation makes the cabinet accessible from either side.

Adjustable File Dividers

Universal divider can be used with any media and helps keep stored items upright and organized.

Easy Expansion

Both side panels of the unit are removable for easy expansion to either side as more storage is needed.

Leveling Capability

Heavy duty platform with built in leveling capability allows for smooth operation despite uneven floors.

Multimedia Storage

Adjustable shelves can be used to store letter, legal, binder, and book media,. Pull out drawers for hanging file folders and multimedia storage are also available.

Security

Unit can be locked in the open or closed positions.

Safety Strip

Rubber safety strips help to prevent pinch points.

Create a custom storage solution

The Ez2® is a flexible and versatile storage solution. A three high unit can serve as a convenient work surface with storage underneath for common work areas. Multiple units can be joined together to double as storage and a room divider. Perfect for virtually any application, the possibilities are endless!

Easy access to stored material

Open

When open, the Ez2® provides quick and easy access.

Revolving

With just an easy spin, another complete set of files is accessible.

Closed

When closed, the Ez2® locks for total security, helping to meet HIPAA regulations

Comparison of filing methods

The Ez2® offers 312%* more files per square foot than traditional filing systems!
