Pure Oxygen Concentrator

Item #	Product Description	UOM
CH5000S	Pure Oxygen Concentrator, Oxygen Sensing	1/ea
CH5000	Pure Oxygen Concentrator, Non-Oxygen Sensing	1/ea

- The Drive Pure is an easy to use, service, and maintain 5L concentrator that will have patients, referral sources and delivery technicians thanking you.
- Simple user interface with easy to view and operate power switch, LED indicator lights, and flow selector.
- Simple humidifier bottle connection within the compact, sleek, inconspicuous design.
- Available with both oxygen sensing and non-oxygen sensing configurations.
- Superior mobility with top handle, easy roll casters, and minimal weight.
- Easy to connect transfill port on every unit.
- Simple single door access to both the foam and the HEPA filter.
- Exhaust system design directs airflow away from the user and reduces noise.
