

A photograph of a woman with dark hair and a young girl with blonde hair, both smiling. The woman is wearing a white, ruffled blouse and is carrying the girl on her shoulders. The girl is wearing a white, ruffled blouse with a red and yellow patterned trim. They are outdoors, with a blurred background of greenery and a bright sky.

CURAD® has been a staple of quality wound care products since 1914. With strong consumer brand awareness, Curad's long-standing presence in the first aid aisle is an easy choice for consumers.

From signature Ouchless® bandages to a comprehensive line of hospital-quality wound dressings, Curad products can be found in major retail chains across the United States, as well as in hospitals and healthcare facilities.

Medline acquired Curad in 2007 and continues to build upon the strong first aid equity that the brand represents. We look forward to sharing an ever-expanding selection of well-crafted first aid products with you.

Adhesive Bandages

Flex-Fabric™ Bandages

Fabric bandages woven to stretch, bend and breathe. Water-repellent coating helps to keep the bandage dry and secure. These durable bandages are a consumer favorite.

Adhesive Bandages

BlisterHeal®

BlisterHeal provides ultra thin protection with soothing aloe for instant comfort. Effective for blister prevention and good for shallow wounds. With a smooth polyurethane backing, this waterproof hydrocolloid reduces friction and offers longer wear time over tender areas. It also seals in moisture to promote faster healing.

Butterfly Wound Closures

Butterfly wound closures help to close and secure small wounds or incisions. Closures are waterproof, sterile and latex-free.

Eye Patch

This unique product is made of breathable paper backing, bonded to an absorbent pad. It also has gentle adhesion for facial skin.

Variety Pack

A handy variety pack with an ample supply of three helpful bandages for the medicine cabinet. Butterfly wound closures secure wounds and help keep them closed in the early stage of healing. Clear waterproof bandages provide complete, waterproof protection with a polyurethane backing for longer wear time. Comfort Fabric bandages provide soft, breathable coverage to keep healing wounds covered.

Wound Dressings

Cotton Bandage Roll

For use as a primary or secondary wound dressing. 100% cotton bandage roll provides fast-wicking absorbency and aeration.

Cotton Bandage Roll Benefits...

- Finished edges for less fraying
- Premium cotton fibers for less linting

CUR25865

Did you know?

The cotton bandage roll is our #1 selling traditional wound care item in hospitals.

Source: 2010 Medline ISD (internal sales data)

Rolled Gauze

Rolled gauze is made of a polyester/rayon blend. It is ideal for hard to bandage areas, and reduces the risk of constriction, especially in the knee and elbow areas. Used as a secondary dressing, it protects and cushions the wound site while keeping out dirt and germs.

Wound Dressings

Non-Stick Pads

Curad non-stick pads are the #1 selling national brand.* These versatile dressings are good for use on post surgical wounds, light bleeding, large surface cuts, scrapes and burns. Made of a soft, perforated mylar film bonded to a highly absorbent and breathable cotton/polyester blend pad. The ventilated film allows the wound to breathe while absorbing fluids. The pad can be cut or trimmed to fit most wounds.

Antimicrobial Gel

CUR45951

Silver Solution™

Curad Silver Solution is a new antimicrobial gel with silver as the active ingredient. It is formulated to offer broad spectrum protection against bacteria and provide a long 'activity life' that lasts up to three days.

Silver Solution is a hydrogel that applies easily and absorbs thoroughly, leaving no greasy residue like petroleum-based ointments. Silver Solution is a non-stinging, non-staining barrier that helps hydrate the wound area for ideal wound management. Pair it with Curad bandages to protect all of those cuts, scrapes and minor burns.

Advanced Scar Therapy®

Clinically tested more effective than Mederma® and silicone pads to improve the appearance of scar color, thickness, stiffness and irregularity.¹ Great for post-surgery, injury, burns and acne.

Scar Therapy Advanced Gel Pads provide healthy treatment from a synergistic blend of three key components of the barrier lipid including Omega-6 (*Safflower Oil*), Retinyl Palmitate (*Vitamin A*) and Tocopherol (*Vitamin E*) Acetate to hydrate and condition the skin. Both strips and discs are washable and reusable, dermatologist tested and silicone-free.

¹Clinical study resulted in a more rapid improvement in scar appearance observed in subjects treated with Scar Therapy Advanced Gel vs. Cica-Care® Silicone Sheets, Mederma® and untreated controls. (Data on file)

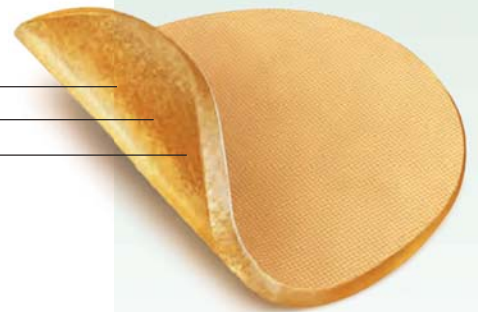

You should begin to see results in one month.
For best results, continue for three months or until desired results are achieved.

• Individual results may vary.

**Hydrates & Conditions Skin
With a Nourishing Blend of
Three Key Ingredients:**

- Omega-6 (*Safflower Oil*) _____
- Retinyl Palmitate (*Vitamin A*) _____
- Tocopherol (*Vitamin E*) Acetate _____
