

QUICKVUE[®]

Influenza TEST

Test and Treat Today![™]

Diagnosing influenza can be confusing. One third of all upper respiratory infections are caused by influenza. This leads to over 36,000 deaths, 114,000 hospitalizations and accounts for over \$12 billion spent in lost work and related medical expenses each year in the U.S.

Quidel's CLIA-waived QuickVue

Influenza test provides you with test results that allow you to Test and Treat in 10 minutes or less.

Prompt diagnosis and treatment of influenza is a solution to the overuse of antibiotics, allows for timely use of antivirals, and prevents healthcare costs related to unnecessary testing and treatment.

Rapid Diagnosis and Treatment

- Results in 10 minutes or less (right in the exam room) for better patient management decisions.
- Most patients tested can be diagnosed and treated in just one office visit.

Easy to Use

- 1 step (nasal wash/aspirate), 3 steps (nasal swab), 1 reagent, 30 seconds hands-on time.
- First CLIA-waived flu test.

Accurate Detection

- QuickVue Influenza test detects both types A and B viral antigens.
- Nasal swab procedure:
Sensitivity: 73% (95% C.I. 67%-78%)

Specificity: 96% (95% C.I. 93%-98%)

Accuracy: 87%

- Nasal wash/nasal aspirate procedure:

Sensitivity: 81% (95% C.I. 72%-88%)

Specificity: 99% (95% C.I. 93%-99%)

Accuracy: 94%

Convenient Packaging

- Each kit contains everything needed to perform the test, including both positive and negative controls.
- Room temperature storage with up to 24-month shelf life from date of manufacture.
- Transport swab set also available separately.
