

# Pick how you click.

With 3 ways to activate and a broader range of sizes than most other brands, SurGuard®3 is the industry's most adaptable safety needle. Add separate thumb and finger grips, unequalled sharpness, and competitive pricing, and you'll understand why we say SurGuard®3 is the one needle that fits *every* clinician's style.

- 3 modes of activation—thumb, finger, or hard surface
- Separate finger/thumb grips with ridges and nonslip surfaces
- Hub and needle locks for security post activation
- Broad range of sizes
- Firm injection feel
- Sharpest needles among major brands tested\*
  - 10% sharper than similar needles from Becton, Dickinson and Company
  - More comfortable injections for patients

**Bottom line:** No matter what you're looking for in a needle, you're looking for SurGuard®3.
