Customer Interaction Center

The ConvaTec Customer Interaction Center (CIC) has Product Specialists, including WOC (ET) nurses available five days a week to answer ConvaTec product-related questions and provide reimbursement information (HCPCS codes and utilization limits) for ConvaTec products to patients and professionals.

To contact the CIC department, call toll free **1-800-422-8811, M-F 8:30am-7:00pm ET,** or via the ConvaTec website at: **www.convatec.com**

Disclaimer

The reimbursement information provided by ConvaTec is intended to provide general information relevant to coding and reimbursement of ConvaTec's products only. Coverage and payment policies for the same insurer can vary from one region to another and may change from time to time because of ongoing changes in government and insurance industry rules and regulations. Therefore, please confirm HCPCS codes with your local DME-MAC, private insurer, or Medicaid agency before processing claims. ConvaTec does not guarantee coverage or payment of its products listed herein.

Skin Care & Accessory Products

AllKare® Protective Barrier Wipe

Non-water soluble formula for skin protection. Provides a barrier film layer on the skin under tapes, skin barriers/wafers, adhesives, and hydrocolloid dressings to help protect against irritation, excoriation and adhesive build-up.

Product Code	Qty.	HCPCS
037439	50 wipes per box	A5120
037444	100 wipes per box	A5120

AllKare® Adhesive Remover Wipe

For the gentle removal of all adhesives, including skin barriers, tapes, and hydrocolloid dressings. The AllKare® Adhesive Remover Wipe formula effectively removes tape, skin barrier/wafer, and adhesive residues from the skin that can reduce wear times.

Product Code	Qty.	HCPCS
037436	50 wipes per box	A4456
037443	100 wipes per box	A4456

Stomahesive® Paste

Pectin-based Protective Skin Barrier

Use as a filler in uneven skin surfaces to help increase ostomy system wear time and protect skin.

Product Code	Size	Qty.	HCPCS
183910	2 oz. tube	1 tube per box	A4406

Stomahesive® Protective Powder

Helps form a protective barrier against excoriated or weeping skin.

Product Code	Size	Qty.	HCPCS
025510	1 oz. bottle	per bottle	A4371

Stomahesive® Skin Barrier

A multipurpose skin barrier designed to help protect peristomal skin and assist in the management of difficult stomas. Available in sterile and non-sterile forms.

Product Code	Size	Qty.	HCPCS
Non-Sterile			
021712	4" x 4" Wafers	5 per box	A4362
021715	8" x 8" Wafers	3 per box	A5122
Sterile			
021901	4" x 4" Wafers	5 per box	A4362

Stomahesive® Strips (Moldable Adhesive)

Double sided Stomahesive® Strips for use as a filler to protect or fill-in uneven skin surfaces next to an ostomy, fistula, or wound.

Product Code	Size	Qty.	HCPCS
025542	3 cards of 5 strips each	15 per box	A4362

Eakin Cohesive® Seals

A donut-shape ostomy accessory that can be molded to a variety of shapes. It acts as a gasket or barrier, and provides enhanced protection for hard-to-fit stomas. The unique moldable hydrocolloid barrier forms a gel that helps prevent skin damage by sealing the area between the skin and ostomy appliance.

Product Code	Size	Qty.	HCPCS
839002	Small 2"	20 per box	A4385
839001	Large 4"	10 per box	A4385

ConvaTec

Now There's a Seal
for Every Situation

Eakin Cohesive® Slims® Seals

Better Protection from leaks and
skin irritation just got a little slimmer!

Eakin Cohesive® Slims® Seals feature all the same benefits of Eakin Cohesive® Seals...

- Moldable to fit all shape and size stomas
- Help prevent sore and irritated skin around stoma
- Skin-friendly material will not sting
- Absorb excess moisture
- Can be broken and rejoined or layered to fill uneven skin surfaces
- Can be rolled to fill grooves and crevices

...plus

- Low profile for added comfort and discretion
- Additional flexibility to move around more freely
- Less residue left behind
- Easy to remove for multiple pouch changes

Eakin Cohesive® Slims® Seals

Eakin Cohesive® Seals - Small

Eakin Cohesive® Seals - Large

Eakin Cohesive® Skin Barrier

Eakin Cohesive® Skin Barrier is moldable and moisture-absorbing. It is designed to help protect the skin from contact with body fluids. It is used wherever the skin is damaged, excoriated or vulnerable and needs protection from body wastes and fluids.

Product Code	Size	Qty.	HCPCS
839004	Small 4" x 4"	5 per box	A4385
839003	Large 4" x 8"	5 per box	A4385

DuoLock® Curved Tail Closures

For use with SUR-FIT Natura®, Esteem *synergy*®, ActiveLife®, and SUR-FIT® AutoLock® Drainable Pouches

Product Code	Qty.	HCPCS
175652	10 per box	A4363

ConvaTec® Tail Closures

For use with SUR-FIT Natura®, Esteem *synergy*®, ActiveLife®, and SUR-FIT® AutoLock® Drainable Pouches

A clicking noise can be heard when closing the tail closure to ensure security. Prior to initial use, open and close several times.

Product Code	Qty.	HCPCS
175635	10 per box	A4363

Ostomy Appliance Belt

Adjustable up to 42"

May help provide an added sense of security.

Product Code	Qty.	HCPCS
175507	1 per box	A4367

SUR-FIT Natura®
Two Piece Products

When it comes to SUR-FIT Natura® ostomy products, we recommend you take a look at the innovative pouch and skin barrier features that have been combined with our Stomahesive® and Durahesive® adhesives. The SUR-FIT Natura® ostomy system offers special moldable skin barriers for a personalized, snug fit around the stoma to help protect skin. The SUR-FIT Natura® drainable pouch is available with a filter that is designed to reduce odor and ballooning.

Also available for post-operative tenderness after surgery is the SUR-FIT Natura® Low-Pressure Adaptor. The SUR-FIT Natura® Low-Pressure Adaptor allows clinicians and patients to attach the pouch to the skin barrier without having to press directly on the abdomen. The SUR-FIT Natura® Low-Pressure Adaptor can be connected to any combination of SUR-FIT Natura® wafers and pouches with the same flange size.

SUR-FIT Natura® Durahesive®
Skin Barriers

Durahesive® skin barriers/wafers are designed for people whose stoma output is mostly liquid. Unlike other skin barriers/wafers that can break down around liquid output, Durahesive® skin barriers/wafers swell up to protect the stoma. This special effect, called turtlenecking, helps create a more secure seal without harming the skin. Durahesive® skin barriers/wafers are also easy to fit, apply, and remove. They will adhere securely to the skin while showering, bathing, and swimming.

SUR-FIT Natura® Moldable Durahesive® Skin Barrier with Hydrocolloid Flexible Collar

with white Hydrocolloid flexible collar and Mold-to-Fit opening

Product Code	Color Match	Size	Qty.	HCPCS
411800	●	small (1/2" - 7/8") stoma (1 3/4") flange	10 per box	A4409

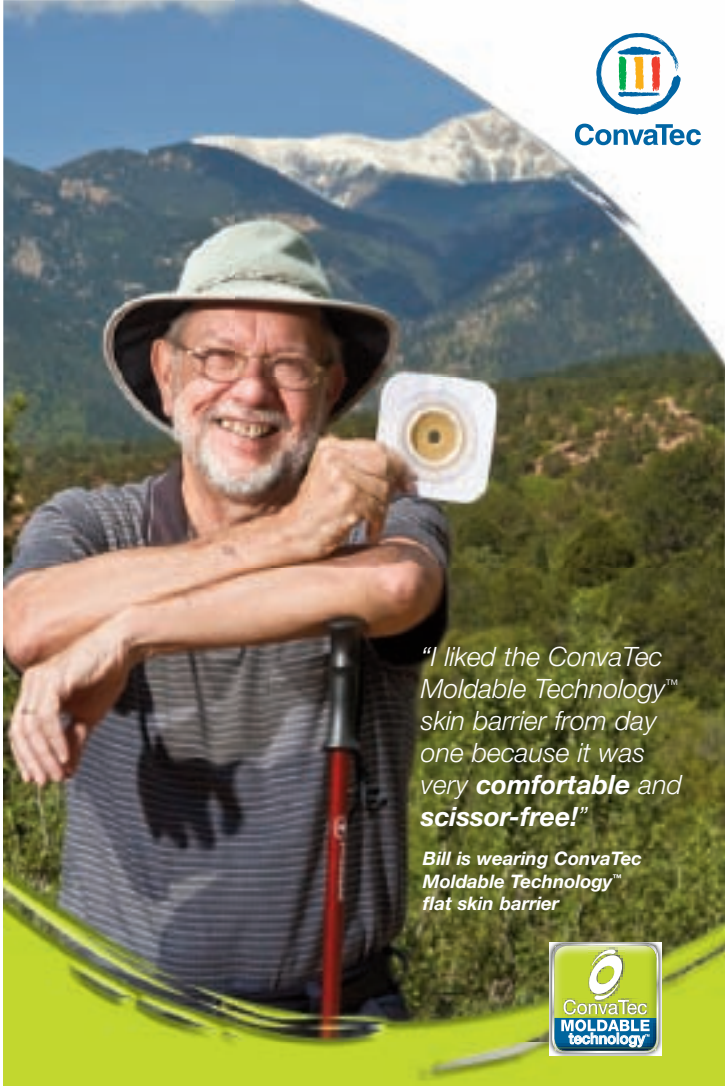
ConvaTec



ConvaTec Moldable Technology™ skin barriers *are helping people like Bill live the life they want.*

Rebounding

The adhesive **gently snugs** up against the wall of the stoma.

Turtlenecking

The adhesive **gently expands** when in contact with effluent to help protect the skin and secure the seal.

SUR-FIT Natura® Stomahesive® Skin Barriers

Stomahesive® skin barriers/wafers are ideal for people whose stoma output is semi-formed to formed stool. This reliable skin barrier/wafer provides a special formula that enables the skin barrier/wafer to adhere to both dry and moist skin. It holds firmly to skin while helping to protect against irritating output. Another feature of the Stomahesive® skin barrier/wafer is an outer protective coating which helps keep it in place. The skin barriers will maintain adhesion to the skin when showering, bathing, and swimming. Plus, Stomahesive® skin barrier/wafers are easy to fit, apply, and remove.

SUR-FIT Natura® Moldable Stomahesive® Skin Barrier with Hydrocolloid Flexible Collar

1 3/8"	2 1/4"	1 5/8"

SUR-FIT Natura® and SUR-FIT® AutoLock® Disposable Convex Inserts are not available for stoma sizes wider than 1 3/8".

SUR-FIT Natura®
Low-Pressure Adaptor

The SUR-FIT Natura® Low-Pressure Adaptor allows extra finger space to attach the pouch to the skin barrier without having to press directly on the abdomen. This feature provides greater comfort to patients who have abdominal tenderness after ostomy surgery. This is a temporary and disposable product. For optimal performance the SUR-FIT Natura® Low-Pressure Adaptor should be changed with every new skin barrier change. The SUR-FIT Natura® Low-Pressure Adaptor works in conjunction with the SUR-FIT Natura® skin barriers and pouches with the same flange size.

SUR-FIT Natura® Low Pressure Adaptor

401995	●	70 mm (2 3/4") stoma	10 pack	A4421
401996	●	100 mm (4") stoma	10 pack	A4421

SUR-FIT Natura®
Drainable Pouches

SUR-FIT Natura® drainable pouches have soft, fabric-like comfort panels. With streamlined body contour panels, low-profile design, and less headroom, they distribute pouch content more evenly and away from the stoma. All drainable pouches have a wide tail opening for easier emptying.

The SUR-FIT Natura® drainable pouches are also available with the InvisiClose® tail closure system and an advanced filter. The InvisiClose® clipless tail closure offers double security, ease of drainage, comfort and cleanliness. The easy to open outlet end strips and tail design help control flow and reduce splashing. The locking mechanism is enhanced by an additional security flap for added peace of mind. The advanced air filter is designed to let gasses through while repelling liquids.

SUR-FIT Natura® Closed-End Pouches

SUR-FIT Natura® Closed-End pouches are designed for one-time usage, and may be used everyday, for special occasions or intimate moments. They are available with a filter that is designed to reduce odor and gas buildup. There's no draining or uncomfortable clip to worry about. When you're ready, you simply remove the pouch, place it into a disposable bag, then discard it.

Gentle Touch®
Postoperative Products

Gentle Touch® Postoperative kits are designed for post-surgical use following a colostomy, ileostomy or urostomy procedure. They provide easy pouch to skin barrier/wafer application and require less pressure on tender post-surgical abdomens. They can also be used in the management of abdominal fistulas or draining surgical wounds.

Gentle Touch® System - Colostomy/Ileostomy Postoperative System - Sterile

Set includes:

- 1 Stomahesive® Skin Barrier with SUR-FIT® Flange
- 1 SUR-FIT® Drainable Postoperative Pouch (12" Transparent) with Gentle Touch® Flange
- 1 Tail Closure

* HCPCS Code is determined by the size of the barrier mass excluding the tape collar.

Esteem *synergy*® Two-piece Ostomy System

The Esteem *synergy*® ostomy system utilizes an innovative Adhesive Coupling Technology™ that connects the pouch to the skin barrier and eliminates the need for plastic rings that must be snapped or locked together. Esteem *synergy*® ostomy system is ConvaTec's innovative two-piece product that provides the skin friendliness and versatility of a two-piece system, as well as the low profile, comfort, and flexibility of a conventional one-piece system.

The Esteem *synergy*® ostomy system has a flat, flexible adhesive foam ring on a pouch that securely connects with a clear, flat, flexible plastic "Landing Zone" flange on a skin barrier. It is easy to apply and easy to remove.

Esteem *synergy*® Skin Barriers

The Landing Zone flange on the skin barrier is square and is slightly larger in size compared to the round adhesive ring on the pouch. This makes the application process easy - precise alignment is not necessary.

Esteem *synergy*® Durahesive® Moldable Convex Skin Barrier with landing zone flange

with white tape collar and mold-to-fit opening

Product Code	Color Match	Stoma Opening	Overall Dimensions	Qty.	HCPCS

Esteem *synergy*® Drainable Pouches

The ergonomically shaped Esteem *synergy*® drainable pouches are designed to complement body contours and add to ease of emptying. Esteem *synergy*® drainable pouches have an advanced air filter which is designed to let gasses through while repelling liquids.

Esteem *synergy*® drainable pouches are also available with the InvisiClose® tail closure system. The InvisiClose® clipless tail closure offers double security, ease of drainage, comfort and cleanliness. The easy to open outlet end strips and tail design help control flow and reduce splashing. The locking mechanism is enhanced by an additional security flap for added peace of mind.

Esteem® One-Piece Ostomy System

Esteem® One-Piece Ostomy System offers one step application which means no need to attach pouches to barriers. It is easy to teach and use and the InvisiClose® tail closure eliminates the need for a clip. ConvaTec utilizes a modified Stomahesive® skin barrier to achieve desirable adhesive security while being gentle to the skin. It's flexible oval-shaped barrier molds to the contour of the body and the curved pouch shape provides maximum comfort during wear.

Little Ones® Pediatric Ostomy System

With the ConvaTec Little Ones® Ostomy System, finding the right ostomy system is elementary. With all the challenges that go with raising a child, finding the right ostomy product needn't be one of them. That's because ConvaTec has a line of products designed just for kids. The line features products for children who have had colostomy, ileostomy, or urostomy surgery. As with our adult line, Little Ones® products offer a full range of products to meet any child's need or parent's preference. Each has been scaled down in size to comfortably fit a child's unique body contour. Little Ones® products are designed with an active child in mind. They're flexible, durable, and easy to remove, so there's minimal discomfort and parents love them because they let kids get on with the business of just being kids!

Ostomy Glossary of Terms

Abdomen —area of the body between the chest and the hips in the front part of the body that contains the digestive organs

Adhesive Coupling Technology™ —a two-piece ostomy pouching system that attaches with a tape-like adhesive rather than plastic rings snapping together

Closed-end pouch —a pouch that has no opening at the bottom and is removed and discarded after each use

Colostomy—a surgically-created opening between the large intestine (colon) and the abdominal surface

Comfort panels— ConvaTec pouches are available with 1-sided and 2-sided comfort panels for your convenience

Convexity— Convex products may be used when a stoma empties at or below the skin surface; when there are creases, wrinkles or scars near the stoma, and/or when the abdomen is very soft around the stoma.

Drainable pouch —has an opening at the bottom which allows stool or urine to be drained and re-closed with a clip or self-gripping fastener hook tape

Durahesive® — is an extended wear barrier that provides the ultimate in security and adhesion for people with liquid to semi-liquid outputs

Durahesive Plus®— is an extended wear barrier available in a one-piece cut-to-fit pouch

Film — all ConvaTec pouches have built in layers that help reduce the rustling noise under clothing, and a built in odor-barrier

Filter — some ConvaTec pouches have an integral filter that helps reduce gas buildup within the pouch

Fistula — an abnormal tube-like passageway between one hollow organ in the body and another hollow organ, or the skin

Ileostomy — a surgically-created opening between the small intestine (ileum) and the abdominal surface

Ostomy Glossary of Terms (cont'd)

One-piece ostomy pouching system — the skin barrier/wafer and pouch are made as one

Ostomy — a surgically-created opening (called a stoma) in the gastrointestinal system to allow the passage of stool or in the urinary system to pass urine

Peristomal skin — the skin surrounding a stoma

Pouch with spout — drainage tap or spout at the bottom of the pouch to empty urine or liquid stool

Pre-cut — some ConvaTec skin barriers are available pre-cut to certain stoma sizes

Skin barrier/wafer —round or square-shaped with a sticky side that is applied to the skin around the stoma (called peristomal skin). Helps protect the skin from stool or urine, which can be very irritating

Stoma — a surgically-created opening on the abdomen surface. Also commonly called an ostomy. Stool or urine leaves the body through this opening instead of the anus or urethra

Stomahesive® — is a skin barrier that provides excellent security for people with semi-formed to formed output because of its special formulation that enables it to adhere to both dry and wet skin

Tape collar — ConvaTec skin barriers are available with or without tape collars. Most skin barriers with tape collars are available in white, dye-free tape or tan tape

Two-piece ostomy pouching system — skin barrier/wafer and pouch are separate and attached together with a round, plastic ring (called a flange). Pouch can be easily removed without also having to remove the skin barrier/wafer

Urostomy — a surgically created opening which allows urine to pass

Wound Managers

Eakin® Fistula and Wound Managers

Customer Interaction Center
ConvaTec

Offering Patients and Healthcare Professionals Live Support.

Our WOC nurses can provide samples to patients, answer questions regarding product application, address concerns with Medicare guidelines and can help patients order ostomy supplies and connect them with a retailer.

Valuable services also include:

- ☑ ***Multi-language support line***
- ☑ ***ConvaTec Ostomy Access Program® – for patients unable to afford their ostomy supplies***
- ☑ ***Warm transfers to our friends at ostomysecrets®, where all of the employees are also ostomates***
- ☑ ***A personal connection to our Great Comebacks® Family***

The Customer Interaction Center is available by calling

1-800-422-8811

Monday – Friday 8:30 am – 7:00 pm, EST
please reference promo code 8599
or by emailing CIC@convatec.com,
in which case a response will be provided within 48 hours.
